Serious trucks.™

THE MORE YOU HAUL, THE MORE YOU NEED A TRUCK LIKE THIS.

You have a haul to make. And whether it's done the same day or takes a full week, you want a truck you can depend on. Meet the Star. Western Star started out as a work truck, so we know how to build them tough and how to build them to last. We also know how to build them just how you want them.

In fact, every Western Star® is hand-built, so you can specify your truck exactly as you want. Every component is designed to give you a lightweight truck with the power, durability, reliability and – most importantly – profitability you want. So you not only get a strong truck, you get a strong investment. Guess you can get it all.

The best factory customization in the industry.

Build exactly the truck you want, exactly how you want it to look. With thousands of options and a workforce dedicated to hand building the truck you need, Western Star delivers true factory customization all backed by a single factory warranty. If there's something you need, just ask.

NOW THIS IS HOW YOU BUILD A TRUCK.

Nothing but the best. That's what you can expect from Western Star. From the luxurious, spacious interior to every nut and bolt that holds it together, we don't settle for anything less than what meets our expectations – so we can beat yours.

Heavy duty doesn't have to be heavy.

Customization isn't just about adding more. Sometimes it's opting for less. You can spec a Star to be one of the lightest trucks out there. So when weight is a concern, we can make it less of one.

Honeycomb panel construction. Light and strong.

Making the lightest sleeper on the market is only part of the reason for our honeycomb construction. Sure, without traditional fasteners like nuts and bolts, the weight savings of our sleepers save fuel and increase payload. But the durability is increased, with bonded panels that provide a seamless finish and stronger uniform surface stability.

A nice place to call work.

Yes, the cab and new interior of a Western Star® truck is comfortable. It should be. It was built to give you more. More quiet. More legroom. More storage. More space between seats. Of course, you have to give up a few things. Like compromise. We think you'll adjust.

The only substitute for power is more power.

From the legendary Detroit, to the responsive Cummins, you can spec the engine that has the brute strength you need to get the job done. Getting a Star is all about choices, and we make sure there's profitability in every one. There's no shortage of getting what you want around here.

ENGINE	HORSEPOWER	TORQUE
DETROIT™ DD13*	350-505	1250-1850lb.-ft.
DETROIT™ DD15*	400-505	1550-1750lb.-ft.
DETROIT™ DD16*	500-600	1850-2050lb.-ft.
CUMMINS L9	260-380	720-1250lb.-ft.
CUMMINS X15	400-605	1450-2050lb.-ft.

DETROIT DD15

DEMAND POWER AND EFFICIENCY.

Detroit™ engines are engineered to deliver the excellent power and fuel economy you depend on while still meeting today's efficiency requirements. That's why each engine we build is 2016 OBD (OBD16) Certified and compliant with 2017 Greenhouse Gas (GHG17) regulations. So you can count on a powerplant that will run clean and strong for many miles to come.

Door panel doesn't quite describe it.

That's because the new door panels in the Western Star do more than look good. They're designed to give you more storage and provide extra handholds to make getting in and out easier. In fact, you'll find storage throughout the cab, with plenty of space between the seats and in the dash. Function and looks, all in the same package.

PARTS AND SERVICE, WHEN YOU NEED THEM.

Our goal is to keep you working. That's why your dealer has an experienced service center team and carries a wide selection of parts, with access to an even greater variety through our expanding global network of parts distribution centers. You get the support you need to grow – no matter where you do business.

YOUR KIND OF FINANCING PROGRAMS.

Being part of the Daimler Truck Financial family means we can get you into the right truck at the right price with rates that are competitive with anyone, including banks. Plus, because we know the transportation and vocational business, it's simple to get the financing you need – and into the Western Star you want.

Daimler Truck Financial

Financing that works for you.
